## PROFESSIONAL PROFILE

Senior Systems & Infrastructure Administrator with 20+ years of experience managing complex enterprise environments, manufacturing facilities, and high-density data centers. Expert in bridging legacy on-premise hardware with modern cloud (AWS/Azure). Specialized in high-availability networking (**EIGRP/HSRP/LACP**) and **2.4GHz/5GHz** wireless optimization.

## CORE COMPETENCIES

- **Networking/Wireless:** Cisco Catalyst/Nexus, **EIGRP, OSPF**, Palo Alto PAN-OS, Cisco ASA, 802.11a/b/g/n, Wireshark.
  - **Cloud/Identity:** Azure Entra ID, Okta SSO/SCIM/MFA, AWS, Microsoft 365, Intune, SCCM/PDQ, CrowdStrike, Duo.
  - **Infrastructure:** VMware vSphere/ESXi, Dell PowerStore/PowerEdge, VxRail, Nimble, Data Domain/Avamar.
- 

## PROFESSIONAL EXPERIENCE

### GILLIG | Livermore, CA

*Senior Systems Administrator | May 2017 – March 2026*

- **Infrastructure Lifecycle:** Managed modernization of manufacturing and office network fabrics; upgraded MDF/IDF rooms.
- **Network Architecture:** Maintained scalable backbone utilizing **EIGRP** for seamless routing and high availability.
- **Wireless Excellence:** Engineered high-density solutions; optimized **2.4GHz/5GHz** paths for OT and engineering clients.
- **Identity:** Led migration to Okta SSO/SCIM and Office 365, centralizing identity for a hybrid workforce.
- **OT Integration:** Supported Siemens PLC networks and Over-the-Air (OTA) software delivery during manufacturing.

### BehringIT | Danville, CA

*Enterprise Solutions Architect | June 2006 – Present*

- **Consulting:** Architected hybrid-cloud solutions for SMB/Enterprise, transitioning legacy systems to high-performance.
- **Server Room Design:** Directed physical layer architecture, rack layouts, cooling, and power redundancy.
- **Storage/Recovery:** Implemented SAN/NAS (Nimble, Dell PowerStore) and DR protocols via Dell EMC Avamar.

### Datapipe | San Francisco, CA

*Tier 2 Systems Administrator | April 2015 – May 2017*

- Provided systems support for Linux (RHEL, CentOS, Ubuntu) and Windows in high-density data centers.

- Administered Cisco Chassis Switches, Cisco ASA firewalls, Racktables, and Nagios platforms.
- Mitigated large-scale DDoS attacks through real-time network analysis and mitigation protocols.

### **SugarSync | San Mateo, CA**

*Data Center Technician | September 2014 – April 2015*

- Managed physical DC infrastructure (UPS, generator, cooling); coordinated vendor repairs and documented assets.
- Maintained Force10 and CCNP-level Cisco routing and switching equipment within a distributed team.

### **San Ramon Valley Unified School District | San Ramon, CA**

*Computer Site Technician | June 2014 – December 2014*

- Delivered LAN support and break-fix solutions in a mixed Mac OSX and PC environment with a 24-hour ticket turnaround.
- Performed advanced troubleshooting, inventory management, and Cisco Unity VOIP maintenance.

---

## **TECHNICAL SKILLS INVENTORY**

- **Hardware:** Cisco (Catalyst/Nexus/Meraki), Dell PowerStore, HP ProLiant, Ubiquiti, Eaton UPS, Avigilon/Axis.
- **Software:** Wireshark, CheckMK, Nagios, FreshService, PDQ Deploy, PHP/MySQL, HTML5/CSS3, Office365.
- **OS:** Windows Server (2000–2025), RHEL, CentOS, Debian, Ubuntu, macOS, iOS, Android.

---

## **CERTIFICATIONS & EDUCATION**

- **Palo Alto:** EDU-330 (Troubleshooting) | **ID:** C311229
- **Palo Alto:** EDU-210 (Configuration) | **ID:** C193893
- **CCNA:** Cisco Certified Network Associate | **ID:** 417234167962GLXL
- **CCENT:** Cisco Certified Entry Level Technician | **ID:** 415184666238ISZN
- **CompTIA:** A+ (ID: J9B0VKVB9CB42647) | Mobility+ (ID: 52SK88WL73BQ5GH0)
- **Insurance:** CA Producer License (Personal Lines) | **License #:** 0H54397 | **Exp:** 08/31/2027
- **Education:** B.S. International Business & Marketing | Cal Poly Pomona
